SURREY PUSHING ALONG

To date Surrey has raised the sum of \$211.00 towards the Victory Loan; Langley \$260,000 and Delta \$190,000. It is expected that by Saturday night all three districts will have well subscribed their quotas.

Mutual AID BILL Introduced

The first Bill before Parliament after the Easter recess was the Mutual Aid Bill. Hon. Mr. Halsey explained it as a scheme for reciprocal strategic need being given the United Nations. A board of five cabinet ministers will deal with the question and say where supplies will go and on what terms and arrange for reciprocal exchanges. The involved question of foreign exchange enters very largely into it and there was detailed explanation about deficits in sterling areas and in dollar areas. Assumption by the Dominion of the R.C.A.F. Overseas will reduce the sterling deficit area by three hundred and forty millions a year.

The main opposition to the proposal came from Mr. Cadlin, former cabinet minister. He treated it from the angle that this billion dollar appropriation is in essence a colonial tribute to Great Britain. Mr. Dorion, Independent Quebec Member moved an amendment, whose idea was that the money should be raised by loan from companies whose capitalization is over half a million dollars. When this was ruled out by the Deputy Speaker the ruling was appealed from but sustained by a large vote. A small group of Quebec Members who oppose war appropriations voted against it. The division was 88 to 5.

Hon. Mr. MacKenzie King announced appointment of Parliamentary Assistants to cabinet ministers made during the Easter recess.

The motion for the appointment of the setting up of a Radio Broadcast Committee to consider annual report and review policies of Canadian Broadcasting Corporation was presented to the House by Hon. L. R. LaFlèche, Minister of National War Services. After much discussion this motion was agreed to and it is expected this Committee will start its deliberation very shortly.

HEARING OBJECTIVE

Ottawa, May 12.—Tuesday Loan results \$41,299,359 making cumulative total \$195,392,450. The cumulative total compares with \$161,281,700 in preceding drive. G. W. Spence, chairman National War Finance Committee, made urgent appeal particularly in regard to the \$500,000,000 asked from general savings and payroll savings. Receipts now under these heads are about \$100,000 short.

WHAT A VICTORY BOND IS:

A Victory Bond is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-greatly interest at the rate of 3 1/2 per annum until Dominion stand behind it. Canada has never issued bonds for 75 years, and has never failed to pay every dollar of principal and interest. A Victory Bond is so sure more readily converted into cash than any other security.

Now We Need A Hospital

White Rock now has had a doctor for about a month, and from all accounts is kept quite busy. There is another thing lacking in this district now, and that is a small hospital where some of the worst cases can go; as it is at the present time some who should be in a hospital cannot be accommodated for lack of room in the larger centres.

It is not necessary to start in with a building requiring thousands of dollars to complete. It would be far better to begin in a small way and enlarge as necessity dictates.

There are buildings in this district that could be converted at no great expense into a hospital suitable for present needs.

What it needs is some community spirit that will get the project going. Some might say that such a hospital is unnecessary, but the sick need attention, and the closer home where they can be treated is that much better, especially in these times of transportation. We have in mind a hospital in a small town that was started in a small way by the community, and what a benefit it has been to the surrounding district; but it was the community spirit that made the project possible in the first place. Let's see if White Rock can do something similar?

This is 8th Army Day, remember it and what it has achieved.

Theatre News

Happy Go Lucky it is for the beginning of the week. Dick Powell and Eddie Bracken are a couple of non-working wanderers with a boat who spend their time supervising the boys diving for pennies around incoming ships. Mary Martin, a show girl on the verge of going broke, is searching for a rich husband, aided and abetted by Betty Hutton. Powell tries to help. Amusing complications ensue, especially after Bracken introduces a voodoo love potion with the aid of a flit gun. Incidentally, he and Powell win the girls.

Also Broadway. A vivid screen document of the lawless days when history was being made along the Great White Way. Those days are gone forever, but their memory lives on, when Broadway was Bootleggers' Boulevard and murder was just a hobby. With George Raft, Pat O'Brien, Janet Blair and Marjorie Rambeau.

Invisible Agent comes for the end of the week. How would you like to be an invisible man among Hitler's Gestapo agents? Impossible, of course, but you'll have just as much fun when you see what happens. He gave the Nazis a dose of their own medicine, and they could feel it just as plain—but they couldn't see him. Thrills, suspense, action and laughs, when the invisible man invades Berlin. With Dona Massey, Jon Hall, Peter Lorre and Sir Cedric Hardwicke.

Also Girl Trouble with Don Ameche, Joan Bennett and Billie Burke. When a beautiful newly-broke society girl answers a knock at the door, love walks in—all the way from South America. The handsome Latin took one look at socially-turned maid and accepted her proposition—from then on he did the propositioning.

BOARD MEETING OF V.O.N.

The May Board meeting of the Surrey V.O.N. was held Monday evening May 10th, in the United church hall in White Rock.

About thirty members of the Surrey Auxiliaries were present and the nurses report showed that an average of 150 calls more per month were being made this year compared to the same period last year. This shows the greatly increased work of the V.O.N.

Refreshments were served by the White Rock Auxiliary to their guests.

The regularly monthly meeting of the V.O.N. will be held in the United church hall on Wednesday, May 19th, at 2:30 p.m.

Mrs. J. North, of New Westminster, is visiting Mrs. T. Wilkinson, Bishop road.

ALL-U.S. "LIGHTNING" INTERCEPTOR SQUADRON IN ENGLAND

An All-U.S. Squadron Flying P-38 Lockheed "Lightning" long range fighter interceptor planes operating from a base in England. The P-38 is powered with 12 cylinder, 1500 h.p. Allison engines which give her a speed of over 400 m.p.h. and an exceedingly high rate of climb. Her ceiling is between 35,000 and 39,000 feet. Her armament consists of four machine guns—two .50 inch and two .50 inch—and one 20 mm. cannon in the nose. Her wing span is 52 feet, length 38 feet, and height 9 feet 10 inches.

Photo shows: 2nd Lt. J. A. Force, of Denver, U.S.A., seated in the cockpit of his P-38 waiting for the control tower to give him the signal before taking off from the English base.

"Seems I Can't Save Anything . . ."

WE MET on Main Street. Jim had his usual ready smile, even when he got telling me how hard up he was.

"Seems funny," he said. "I'm earning more these days, but I just can't seem to keep it."

"Taxes, Victory bonds and all those other things coming off my pay."

He paused, then went on slowly.

"At least it seems as though I can't save anything. Actually, of course, those war bonds are my savings. I'm glad I've saved away a few of them. And you can count me in on the Fourth Victory Loan too!"

Have Any Of Our Readers Heard of a Floral Calendar?

J. R. Barker in The Countryman

My floral Calendar was started in 1938. A circular hedge was planted as protection from the winds. Each month is represented by a shrub planted near the hedge the same as the figures on a clock, to represent the months. Then for each month a narrow bed, starting from the centre and coming to a point at the shrub, which contains flowers to bloom in January, and others to follow in order in the other beds. Giving the effect of the hand of flowers moving round to each month of the year.

An Englishman emigrated to the States and became a successful business man, he had a longing to see his parents. So he wrote and asked them to come over for a visit as he couldn't spare the time. They replied as much as they would like to see him they felt too old to undertake the journey. The Englishman then procured some monkey gland treatment thinking they might come if rejuvenated and sent them with instructions. In the meantime a business steamer off so he packed up and started for England. On arrival at the port he wired his parents the time his train was due, and on arrival at the station was looking for them, when a young woman who was wheeling a perambulator, rushed

up and kissed him. He indignantly asked what she thought she was doing. The young woman said, Oh, George, don't you know me, I am your mother. My Mother! Well who is that in the perambulator then? Oh! That is your father. You see he took an overdose.

TRAINING A PEACE ARMY

The men Britain will send, to help run the civil administration of what is now occupied Europe are already at "school", learning something of their post-war jobs. Several Army officers who have served in the police are taking the three months' course at an Army staff college.

Lectures are from nine to noon

each day. Then lunch and more lectures until tea. After this there is private study, and the students are set problems to answer in writing the next morning.

Among the lecturers are high Army officers, experts in law and procedure, officers of the British Intelligence Service who know the methods of enemy agents, and officials of the Foreign Office who explain the political background of the occupied countries.

Transport problems, the establishment and maintenance of all the civil services, both police and the local government, as nearly as possible in accord with the pre-war policy of the countries, are also dealt with.

The way the liberating armies and the civil authorities will work in harmony is stressed, and the provision and distribution of food is also studied.

Stocks are being held ready to be sent from this country and the United States. They will be controlled by the Army, but the students now at the staff college will be responsible for distribution them.

All the students speak two or more languages. At the end of the course there is an examination, after which the students will return to their normal duties until the time to go abroad.

Already in Tripoli British officers who have undergone the course at the Army staff college are temporarily in charge of civil administration. And the work they have done there has proved the efficiency of the scheme.

THE STORY BEHIND MEAT RATIONING

Food is a weapon of war, and we must share our supplies with those who are fighting to keep the war from our shores. After all special wartime demands are taken care of, only one half of the meat produced in Canada will be available for ordinary domestic consumption at home.

Meat supplies for our Armed Forces must be maintained at all costs.

Canned meat is required in large quantities by the Red Cross to send to our boys who are prisoners of war.

Great Britain has to depend more and more on Canada for supplies to maintain even its present low ration rate of 28 cents worth of meat per person, per week.

Since the war started the consumption of meat by civilians has increased in Canada. Great defense projects such as the Alcan Highway and the Shipshaw Power Development have created new and large demands for meat in areas where practically no demand existed before.

Places like Newfoundland and the West Indies, which previously secured their meat from other sources—must now depend to a great extent on Canada.

The many extra ships of the United Nations now calling at Canadian ports, must be furnished with meat.

RATIONING IS INTELLIGENT FORESIGHT INTELLIGENT PLANNING

Coupon rationing is the only way of ensuring equal sharing of the meat available for civilian consumption in Canada. Those with lots of money will not get more than their share—and those with less money will be assured of getting their fair share.

Rationing will help prevent local meat shortages such as occurred last year from becoming widespread and continuous throughout the whole Dominion. The incentive for panic-buying which empties butcher shops early in the day, will be eliminated.

THE MEAT RATION WILL BE AMPLE FOR HEALTH AND NUTRITION

Fortunately, our meat production in Canada has increased. So, although only half our production will be available for civilian use, it will mean a reduction of only about 15% to 20% in the average household consumption.

The proposed ration of 2 lbs. (carcass weight) per person, per week, has been approved by the country's leading food and nutrition authorities, as ample for the health and nutrition standards of everyone—regardless of age or occupation.

DATES AND OTHER DETAILS REGARDING MEAT RATIONING—SOON TO BECOME EFFECTIVE IN CANADA—WILL BE ANNOUNCED LATER

"GETTING THERE FASTER WITH THE MOST-EST"

The old-time General's advice about warfare, applies today more than ever before in history. This is a war of materials—metals, chemicals, gases, rubber, gasoline. Unfortunately many of the materials of warfare are the same as required for civilian bus transportation.

Pacific Stages must operate under government restrictions for the conservation of gasoline and rubber, and still provide essential civilian transportation.

Carrying thousands of passengers daily is part of the job of producing war materials in constantly increasing quantities

NEW WESTMINSTER

BOWLING SEASON IS OFFICIALLY OPENED

The Semlhamoo Lawn Bowling Greens were officially opened last Wednesday by Mr. S. Bowell, of New Westminster, who has performed this same ceremony here every year since the club's inception, with the possible exception of one year. In his remarks he said that someone else should be asked to take his place at these ceremonies, but the unanimous opinion of the whole club, was that we could not get a better man, and wanted him every time.

During the opening ceremonies, the ladies presented Mrs. Cox, wife of the president, with a lovely bouquet of flowers, containing chiefly of lily of the valley.

The usual mixed games were enjoyed by all, while the refreshments served by the ladies were fully appreciated by the large number that turned up for the festivities.

White Rock has again proven that it is the garden spot of B. C. as elsewhere it was raining while we enjoyed perfect weather. Garner's Studio was in attendance, taking a group picture which will be available to anyone requiring a nice souvenir of a most enjoyable outing.

POSSIBLE MILK SHORTAGE

Mr. A. E. Harrison, representative of the Wartime Prices and Trade Board was in White Rock on Tuesday checking on the milk situation here as there is a possibility of a shortage, especially during the holiday season. Milk may have to be shipped in unless enough from local milk shippers can be diverted to increase the local supply.

LAI D AT REST

Last rites for Mrs. Ellen Theobald, Victoria, avenue, White Rock, who died on Monday, May 3rd, at Melrose Park private hospital, New Westminster, were held Thursday afternoon, May 6th, at Christ Church, Surrey Centre.

Rev. W. R. Jeffcott and Canon M. W. Holdom officiated. Interment was in Christ Church churchyard. The pallbearers were: D. Hughes, E. V. Harraway, C. W. Amos, J. H. Watson, R. P. King, and J. Blaby, all of White Rock. The Columbia Funeral Service had charge of the funeral arrangements.

Friends from White Rock attended at Surrey Centre, and lovely floral offerings were received from friends in New Westminster and White Rock.
Mrs. Theobald was born in England, the daughter of the late Rev. George Drury, of Chisdon, Norfolk. Her husband, the late Admiral Charles Bartow Theobald died in 1905. Her elder son, Staff Sergeant Geoffrey C. D. Theobald was killed in the first Great War. She came to British Columbia in 1931, and lived for some years in Chilliwack with her second son, Major N. D. Theobald, M.C. Later she moved to White Rock, where she has since lived with her daughter, Miss M. H. Theobald.

CAUGHT IN TIME

Timely efforts of Miss Clark, Mrs. Bird and Mr. Sinclair saved the fire department the job of handling a bush / fire threatening some cottages on Seale drive and Oxford street. Fire was started by some youngsters playing with

matches whom Mrs. Bird found on the scene.

Field Labour Will Be Scarce!

THE Dominion-Provincial Emergency Farm Labour Service is endeavouring to meet the anticipated emergency but it must have your co-operation.

Approach direct the workers you had last year, and canvass the local labour supply thoroughly.

SEND IN YOUR ESTIMATED REQUIREMENTS TO THE LOCAL WAR AGRICULTURAL COMMITTEE NOW!

REMEMBER! that the Volunteer Field Fighters sent to help you harvest the vital crops will not be seasoned workers. Present indications are that many girls over 16 and boys over 15 will have to be employed.

Their continued labour and their help in the future depends on the way you appreciate their service.

Green workers should be discouraged from working long hours for the first few days in your interests and theirs.

Make wage arrangements on hiring and stick to them. Pay promptly!

DON'T LEAVE EVERYTHING TO THE LAST MINUTE—TO THE WAR PRODUCTION COMMITTEE OR EMERGENCY FARM LABOUR SERVICE.

Make your seasonal arrangements now. Manpower is short!

Can't Keep A Good Man Down

Somewhere in England—That's Clunk Watson roaring his plane in the blue above this airfield. It's a defiant roar in keeping with Clunk's indomitable spirit.

Clunk is Sub-Lieut. Clifford Gordon Watson, a 21-year-old naval fighter pilot from Toronto who returned to the air with a front-line squadron just six months after his life was despaired of in a flying accident while training he fractured his skull, an arm and leg, and injured his spine in ten places.

Surgeons shook their heads gravely when Clunk's broken body was hauled from the wreckage in which a companion was killed. They didn't expect him to live.

Medical men worked all night between blood transfusions. He recovered 37 fractures, including three in the skull. Later they set the broken bones and placed Clunk in plaster from the neck down.

Clunk was in his "straight-jacket" for three months. When he was on his feet again, he married the English girl who nursed him through the vigil. Her name was Joan Pawcett and she has been granted a transfer to a hospital near her husband's land base.

Pronounced fit, Clunk was offered passage back to Canada. He rejected it, was examined every day for two weeks and then told he could fly again—but dual only. Not satisfied, he asked for another medical examination. This time he was passed fit for flying duties as a fighter.
